Part III DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 24-33, 35-36, 38-40 are rejected under 35 U.S.C. 102(b) as being anticipated by Mizutani et al (US 4,807,204).

Mizutani et al disclose a method for recording and reproducing a magneto-optical recording medium which includes a plurality of magnetic layers. The plurality of the magnetic layers are irradiated with light beams having different wavelengths.

Allowable Subject Matter

Claims 34 and 37 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
